GROWING OUR CLIENTS' BUSINESS THROUGH CONSISTENT QUALITY, ON TIME DELIVERY & HONEST COMMUNICATION.

A state of the art prepress house, Flexoworld supplies both digital and analog flexo printing plates to polythene, self-adhesive label and corrugated printers across East Africa.

We are a part of Ramco Plexus, a group of companies that have come together to serve the greater need of print and packaging in East Africa. Flexoworld is a joint venture between the Ramco Group, Skanem Interlabels Kenya and York Reprographics which is one of the largest flexo plate makers in the UK. This partnership has allowed Flexoworld to bring world class plate quality and systems to the East African printer resulting in significantly improved print quality, reduce plate costs and increased delivery speeds.

#### QUALITY AND ACCOUNTABILITY AT EVERY STEP

With a strong focus on quality control, we measure, track and communicate all steps in the production process from web submission and artwork creation to plate exposure, proofing and press calibration to help ensure our clients' printed product gives them a market advantage.

Besides supplying flexo printing plates to printers, we also recycle our chemical waste and the waste of our customers and competitors alike.

#### OUR PRODUCTS INCLUDE:

- Digital & HD Flexo Plates
- Analog Flexo Plates
- Chemical Recycling
- Colour Separations
- Artwork Pre-press
